2pcs 510+ clearomizers mouthpieces
1pc 510+ a/c battery charger adaptor
1pc 510+ USB battery charger
1pc eLiquid empty needle bottle
1pc 510+ Manual
1pc elegant box

2. The New Standard, 510+

The 510+ is simpler and more convenient version of the existing Changeable System.

It features a new battery housing with the ability to replace the rechargeable battery. The 510+ is also designed to allow users to quickly check and change their clearomizer.

The 510+ battery enables over 150 standard puffs. Charging takes approximately 2 hours. The unique changeable tank system uses refillable tanks that are more economical than traditional e-cigarettes. The 510+'s thin design is light weight and comfortable to use.

To ensure the optimal performance and safety of your 510+, please read the entire manual for all instructions and precautions.

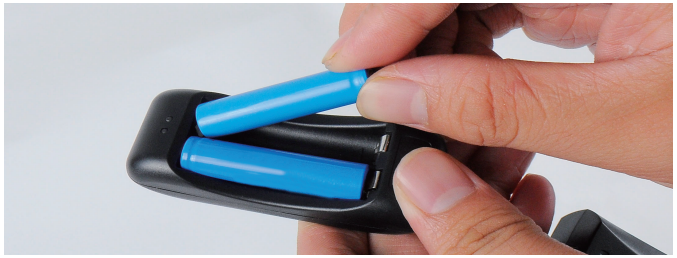
We reserve the right to change components and functions of the e-cigarette in order to improve the product without notice to consumers.

Display is a component of the clearomizer kit

3. Charging the battery

The 510+ 3.7V 360mAh battery is a lithium-ion battery, It should be charged using the dedicated charger. Charged time is approximately 120 minutes(based on a fully discharged state).

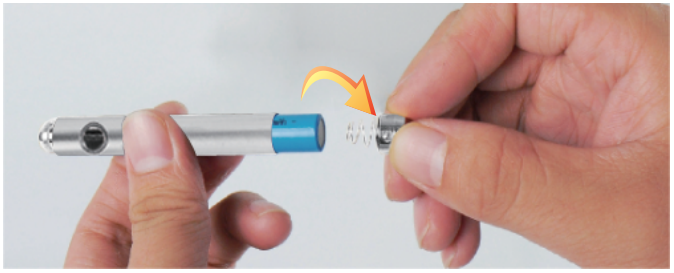
To charge the battery, place it into the charger insuring that the polarity is correct. Plug the power cord into an appropriate USB port that is designed for supplying sufficient power. A red LED will illuminate to indicate charging. The LED will become green when charging has completed.



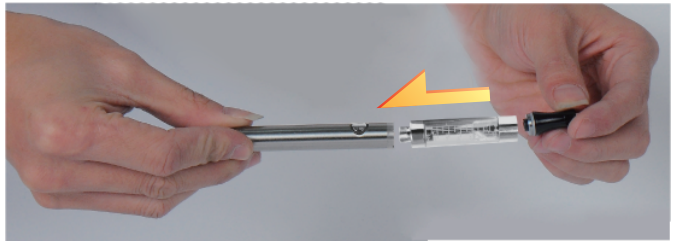
3.1 Use only the dedicated 510+ battery. Do not use other batteries. This could lead to damageand malfunction.
3.2 Use a dedicated high voltage USB port to charge battery properly when using a computer.
3.3 A lithium--ion battery is a consumable item. Usage time will gradually become shorter.
3.4 Be sure to charge battery fully before first use.

4. How to assemble your 510+

The 510+ is composed of a rechargeable battery, battery housing, and clearomizer.



To assemble, first insert the battery (positive terminal first) into the battery housing. Attach the battery cap pushing in until it locks into place.



Insert the mouthpiece into the clearomizer, and screw it onto the battery housing in a clockwise direction. Excessive force may damage the product.

5. How to add eliquid into the 510+ clearomizer

Take out your bottle with needle, unscrew the top & fill with e-juice. Replace the cap with the needle. Take out a 510+ clearomizer and screw out the mouthpiece, pierce the eliquid at the edge. Gently squeeze the e-liquid into the inner side of the clearomizer tank to the recommended levels. Re-insert the mouthpiece, then gently screw into the clearomizer.

6. How to use the 510+

To use. Simply inhale slowly while pressing the LED button on the battery housing. You will feel and taste the vapor gentiy moving into your mouth. Let the rich vapor collect in your mouth and enjoy the taste. Do not use shout strong inhalations.

- Ensure the 510+ system is fully charged and assembled correctly.Reler to assembly instructions in this manual.
- The initial state of he battery setting is OFF. Press the battery switch 5 times within 2 seconds to switch it to ON.

● Hold down the button as soon as you start to inhale. Release at the end of inhalation. If the button is held for too long it will shut off to prevent overheating. Please allow time to return to normal temperature if this occurs.

6.1 Battery power saving feature

This product's battery has a power saving feature to avoid battery drain. To switch the battery OFF, press the LED button five times within two seconds. The LED button will flash a few times as the battery turns OFF. The e-cigarette will not function in this mode. To turn ON, press the LED button five times within two seconds.

6.2 Proper mouthpiece Separation

To separate the mouthpiece from the 510+, hold it with the battery, just screw out.

Excessive use of this product may be harmful to health.

7. Maintaining the product

The 510+ needs proper maintenance to insure that it continues to work well for a long time. Please keep it in a clean environment such as a case. Regularly wipe off excess dirt on joints and outside surfaces of the 510+.

7.1 Battery

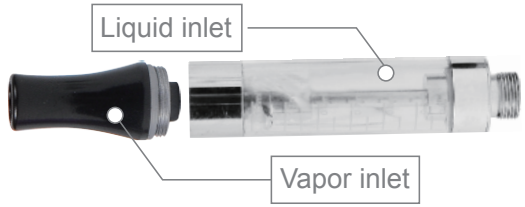
Use a genuine charger and wall adapter to recharge the battery. Do not store battery in direct sunlight, excessive heat, near fire or in places with extreme cold or high humidity. Do not drop or puncture battery.

7.2 Liquid

Storing liquids in an environment that is too hot or too cold may cause it to deteriorate. Liquids should be stored in a cool place away from direct sunlight. Do not freeze liquid. Do not drink liquid. If liquid gets into your mouth or on your skin, wipe area with a tissue and rinse clean.

7.3 Clearomizer kit

If you experience severe heat during product use, discontinue temporarily until it cools down. If the coil in the clearomizer is dry. You may experience burning taste. Please ensure there is enough eliquid in the clearomizer. To remove burnt taste, clean or replace the clearomizer.



To Remove burnt taste.clean or replace the clearomizer.

7.4 510+ clearomizer
If cleaning is required, start by first opening the mouthpiece, rinse with fresh water. Then wipe dry. Do not use teeth, knives, nail clippers, etc., to remove the mouthpiece. Doing so may lead to injury or damage the clearomizer causing it to leak.
